 - HTML
 - React
-

Internship

Full Stack Web Developer at National Informatics Centre (May,24 - July,24)

- Developed a web application for managing data
- Utilized HTML, CSS, JavaScript for frontend and Python flask for backend development.
- Implemented PostgreSQL for database management and data storage.
- Integrated front-end and back-end components to ensure seamless data flow.
- Enabled real-time updates of server data on the web interface
- Ensured efficient and secure connection between the web application and the database.

Projects

- Developed a personal portfolio website using HTML, CSS and JavaScript featuring a responsive design, project gallery and contact form.
- Developed a comprehensive content-based Diet-Recommendation web application which provide personalized dietary suggestions based on user preferences and nutritional data
Implemented a python flask backend for efficient API interactions and a react frontend for user-friendly navigation and input.
